EQUIPMENT COMPANY

No. 12 Scratcher

- Rugged and reliable
- Scratch close to walls and joints
- Reduced service time
- Simple and easy to use

Rugged and reliable: Experience many hours of reliable performance and consistency with a reinforced critical area machine design, and protect critical components with the heavy duty welded drum and cast iron sleeve design.

Scratch close to walls and expansion joints: Perform patching work, and get close to walls, expansion joints and difficult to reach areas with the 12 pin carbide pin design.

Reduced service and down time: Experience longer run times and less down time with simple pin replacement design.

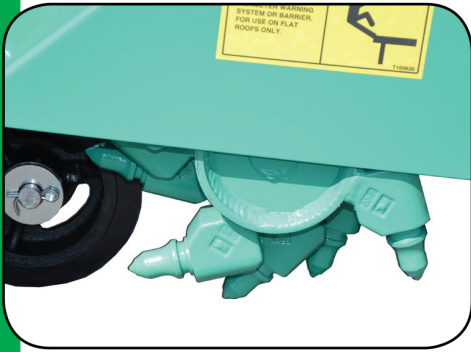

Simple and easy to use: Get started on projects sooner and spend less time training workers with the simple push down handle scraping activated system.
