

Mustang Workhorse™

- Forward and Reverse Power
- Easy to Use
- Fewer moving parts
- Reduce damage to roof decks
- Move heavy loads easily

Forward and Reverse Power: Carry heavy loads, move them more easily, and go over ramps and joints at a constant speed, in forward and reverse, by delivering positive power directly to the wheels.

Easy to Use: Control the machine with the slightest finger touch, and switch directions all from the ergonomically designed on board operating station, designed for operator comfort and control.

Fewer Moving Parts: Eliminate down time reduced parts inventory cost, and time consuming belt and pulley adjustments with the Mustangs Hydrostatic Drive System.

Reduced Damage to Roof Decks: Increased 4 wheel machine stability design reduces damage to insulation and metal roof decks.

Move Heavy Loads Easily: Make fewer trips to the dumpster with the high capacity deep dump box and large hopper, increase versatility on each project with the Gravel Spreader option.

Tuff-Tray Compatible: Eliminate rust or corrosion issues with the one piece molded design of the Tuff-Tray. 1/4" thick poly design built to last and ribbed for strength. The pivot frame separates from the tray for tray replacement.

Tuff-Tray Compatible

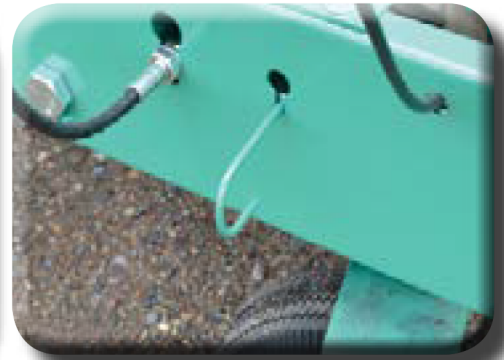

MUSTANG: FEATURES

Upgraded hydrostatic transmission drive system.

Flip up engine cover provides protection and easy access to Honda Powerplant.
